DURHAM, N.C., Feb. 26, 2026 (GLOBE NEWSWIRE) -- [Fortrea](#) (Nasdaq: FTRE) (the "Company"), a leading global contract research organization (CRO), today reported financial results for the fourth quarter and full year ended December 31, 2025.

"We finished 2025 with solid results for the fourth quarter, as the Fortrea team's shared commitment to commercial, operational and financial excellence becomes embedded in our way of working," said Anshul Thakral, CEO of Fortrea. "After a challenging first half of the year, we delivered a second half of strong book-to-bills. I'm proud not only of what we achieved but also how we achieved it. Our large pharma and biotech clients are giving our project teams very positive feedback across the board, as we work to meet and exceed their expectations every day. At the same time, we strengthened our balance sheet through disciplined capital allocation and continued debt paydown. We have continued to deliver and innovate, beginning the new year on strong footing for our journey back to growth and margin expansion."

All commentary in this press release relates to continuing operations unless otherwise noted.

Fourth Quarter 2025 Financial Results

Revenue for the fourth quarter was \$660.5 million, compared to \$697.0 million in the fourth quarter of 2024.

Fourth quarter GAAP net loss was \$(32.5) million and diluted loss per share was \$(0.35) compared to fourth quarter of 2024 GAAP net loss of \$(73.9) million and diluted loss per share of \$(0.82). Fourth quarter adjusted net income was \$9.2 million and diluted income per share was \$0.09 compared to fourth quarter of 2024 adjusted net income of \$16.6 million and diluted income per share of \$0.18. Fourth quarter adjusted EBITDA was \$54.0 million, compared to fourth quarter of 2024 adjusted EBITDA of \$56.0 million.

Fortrea's book-to-bill ratio was 1.14x for the fourth quarter of 2025.

Full Year 2025 Financial Results

Revenue for the full year was \$2,723.4 million, compared to \$2,696.4 million for the full year 2024.

Full year GAAP net loss was \$(986.2) million and diluted loss per share was \$(10.81), inclusive of a non-cash goodwill impairment charge of \$797.9 million recognized in the first half of 2025, which impacted diluted loss per share by \$(8.75), compared to 2024 GAAP net loss of \$(271.5) million and diluted loss per share of \$(3.03). Full year adjusted net income, which excludes the goodwill impairment and other charges, was \$40.4 million and diluted income per share was \$0.43 compared to 2024 adjusted net income of \$30.1 million and diluted income per share of \$0.33. Full year adjusted EBITDA was \$189.9 million, compared to 2024 adjusted EBITDA of \$202.5 million.

The goodwill impairments occurred during the first half of 2025 and primarily resulted from declines in the Company's share price, as well as a macroeconomic market-driven increase to the discount rate. There were no indicators of impairment in the fourth quarter of 2025.

Fortrea's trailing twelve-month book-to-bill ratio was 1.02x and backlog as of December 31, 2025, was \$7,728.0 million.

The Company's cash and cash equivalents were \$174.6 million, and gross debt was \$1,066.3 million as of December 31, 2025. For the full year ended December 31, 2025, operating cash flow was \$113.5 million, and free cash flow was \$88.3 million.

2026 Financial Guidance

For the full year 2026, the Company targets revenues in the range of \$2,550 million to \$2,650 million and adjusted EBITDA in the range of \$190 million to \$220 million.

The guidance assumes foreign currency exchange rates as of December 31, 2025, remain in effect for the forecast period.

The Company's 2026 financial guidance will be discussed during the Earnings Call at 8:00 am ET on February 26, 2026.

Cautionary Statement Regarding Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the federal securities laws, including Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including, without limitation, the Company's 2026 financial guidance. In this context, forward-looking statements often address expected future business and financial performance and financial condition, and often contain words such as "guidance," "expect," "assume," "anticipate," "intend," "plan," "forecast," "believe," "seek," "see," "will," "would," "target," similar expressions, and variations or negatives of these words that are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Actual results may differ materially from the Company's expectations due to a number of factors, including, but not limited to, the following: the Company's dependence on third parties generally to provide services critical to its businesses; the Company's ability to successfully implement the Company's business strategies and execute the Company's long-term value creation strategy; risks and expenses associated with the Company's international operations, tariff policies, trade sanctions and other trade restrictions and currency fluctuations; the Company's customer or therapeutic area concentrations; the Company's adoption and use of technology within its business and the risks that the Company may not be able to capture the anticipated benefits of such technology or that such technology may have negative effects; the outcome and impact of pending or future litigation; any further deterioration in the macroeconomic environment, particularly within the pharmaceutical and biotechnology industry, or further changes in government regulations and funding, which could lead to defaults or cancellations by the Company's customers; the risk that the Company's backlog and net new business may not be indicative of the Company's future revenues and that the Company might not realize all of the anticipated future revenue reflected in the Company's backlog; the Company's ability to generate sufficient net new business awards, or if net new business awards are delayed, terminated, reduced in scope, or fail to go to contract; if the Company underprices its contracts, overruns its cost estimates, or fails to receive approval for, or experiences delays in documentation of change orders; and other factors described from time to time in documents that the Company files with the SEC. For a further discussion of the risks relating to the Company's business, see the "Risk Factors" Section of the Company's Annual Report on Form 10-K for the year ended December 31, 2024, as filed with the Securities and Exchange Commission (the "SEC"), as such factors may be amended or updated from time to time in the Company's subsequent periodic and other filings with the SEC, which are accessible on the SEC's website at [www.sec.gov](#). These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this release and in the Company's filings with the SEC. Comparisons of results for current and any prior periods are not intended to express any future trends, or indications of future performance, unless expressed as such, and should only be viewed as historical data. All forward-looking statements are made only as of the date of this release and the Company does not undertake any obligation, other than as may be required by law, to update or revise any forward-looking statements to reflect future events or developments.

Note on Non-GAAP Financial Measures

This release includes information based on financial measures that are not recognized under generally accepted accounting principles in the United States ("GAAP"), such as Adjusted EBITDA, Adjusted Net Income, Adjusted Basic and Diluted EPS, and Free Cash Flow. Non-GAAP financial measures are presented only as a supplement to the Company's financial statements based on GAAP. Non-GAAP financial information is provided to enhance understanding of the Company's financial performance, but none of these non-GAAP financial measures are recognized terms under GAAP, and non-GAAP measures should not be considered in isolation from, or as a substitute analysis for, the Company's results of operations as determined in accordance with GAAP.

The Company uses non-GAAP measures in its operational and financial decision making and believes that it is useful to exclude certain items in order to focus on what it regards to be a more meaningful indicator of the underlying operating performance of the business. For example, in calculating Adjusted EBITDA, the Company excludes all the amortization of intangible assets associated with acquired customer relationships and backlog, databases, non-compete agreements and trademarks, trade names and other from non-GAAP expense and income measures as such amounts can be significantly impacted by the timing and size of acquisitions. Although the Company excludes amortization of acquired intangible assets from the Company's non-GAAP expenses, the Company believes that it is important for investors to understand that revenue generated from such intangibles is included within revenue in determining net income attributable to the Company. As a result, internal management reports feature non-GAAP measures which are also used to prepare strategic plans and annual budgets and review management compensation. The Company also believes that investors may find non-GAAP financial measures useful for the same reasons, although investors are cautioned that non-GAAP financial measures are not a substitute for GAAP disclosures.

The non-GAAP financial measures are not presented in accordance with GAAP. Please refer to the schedules attached to this release for relevant definitions and reconciliations of non-GAAP financial measures contained herein to the most directly comparable GAAP measures. The Company's full-year 2026 guidance measures (other than revenue) are provided on a non-GAAP basis without a reconciliation to the most directly comparable GAAP measure because the Company is unable to predict with a reasonable degree of certainty certain items contained in the GAAP measures without unreasonable efforts. Such items include, but are not limited to, acquisition-related expenses, restructuring and related expenses, goodwill impairment, stock-based compensation and other items not reflective of the Company's ongoing operations.

Non-GAAP measures are frequently used by securities analysts, investors and other interested parties in their evaluation of companies comparable to the Company, many of which present non-GAAP measures when reporting their results. Non-GAAP measures have limitations as an analytical tool. They are not presentations made in accordance with GAAP, are not measures of financial condition or liquidity and should not be considered as an alternative to profit or loss for the period determined in accordance with GAAP or operating cash flows determined in accordance with GAAP. Non-GAAP measures are not necessarily comparable to similarly titled measures used by other companies. As a result, you should not consider such performance measures in isolation from, or as a substitute analysis for, the Company's results of operations as determined in accordance with GAAP.
